

PEOPLE FOR A NEW AMERICA (AND A NEW WORLD)

(P.F.A.N.A)

Mission Statement

PFANA is an organization formed by citizens whom are dedicated in creating a new model for America by unifying its citizens against “*The Powers that Be*” who knowingly and intentionally inflict harm on its people by ways of covertly purporting corruption and inserting super control into our society. By using peaceful means, our group’s focus is to achieve its goals by initiating effective “**Call to Action**” as the group’s primary tenet and premise of the organization.

The group’s primary purpose is spreading awareness in several key areas. These key areas are spearheaded via the arts and new media. Our group aligns itself with other social betterment groups with similar purposes to participate in this monumental undertaking. **PFANA’s** fundamental and underlining purpose and responsibility is to defend and protect human rights and individual freedoms.

*A major tenet of the group is to promote educate and unify the public by the use of effective campaigns through the **arts, social media and new media alternatives** as well as mainstream media (as allowed or permitted).*

We currently live in extremely volatile times, our lives and current system is on the brink of fiscal, health, environmental and divisionary disaster. It is blatantly obvious that America, and humanity in general, needs to change rapidly or we and our children will face the consequences. We understand and believe that there is a hierarchy of unethical and corrupt individuals running the show which is the primary reason “Why” things are as bad as they are, and this covert plan is by no accident- it’s by design. We assert with our group, that we are a “*new voice*” and “*new model*” in which the world and its people can believe in and be led by which have the people’s interests at heart. **PFANA** is the instrument “**By and For the People**” and it is our pledge and our motto, and we commit ourselves to **fight fire with fire**.

PFANA’s commitment is to provide and promote both practical and alternative methods in several troubled key areas in our society. Our group is nonpartisan. It is our belief that “*the powers that be*”, have divided our nation and people for a purpose, thus creating a way for our great country and our freedoms to be conquered and compromised.

The only way for us as citizens to control our lives and future is through the means of the unification of the people. We can no longer depend and be disappointed by our leaders to make real change, ***it is our responsibility as citizens to take action and control our own destiny***. The group welcomes all honest people from all races, political party, creed, or religion who wish to participate in this group.

Note: *It is our belief that the American public and world alike have been inundated with misinformation and misled for decades by individuals that have taken advantage of our American freedoms by falsifying and manipulating the American system in order to profit and protect their vested interests. It is also the belief of the group that these unethical individuals use their financial domination to buy Washington and the media in order to protect their vested interests. Those covert actions have damaged and endangered our people, our lively hoods and our freedom and even though some of you may feel safe and secure now, history has proven that this false security can vaporize in a flash of a moment; hence the purpose of our group is to insure the people by the platform of unification “by and for the people,” of whom will ultimately be in charge.*

ACTION COMMITTEE:

With effective campaigns that are set forth by the founder and elected committee members whom all are committed and dedicated to represent the best interests of the people. Along with additional input and factual support from a select and appointed network of both internal and external trusted individuals and sources, we will take on and handle each situation one by one and on a case by case basis of those blatantly exerting gross unethical behavior.

With our own internal professional business individuals and high profile artists, it is the aim of the group, to target and investigate unethical and corrupt corporations, individuals and government officials and bring them to justice by using the tried and true method of boycotting or withdrawal of support. When that said subject has been deemed red flagged by the inquiry and its conclusive findings it will then trigger an outflow to its members to engage immediately to boycott and or withdraw support of the named brand, institution or governmental appointed or elected official.

America has to change and the change must come from its people!

**The aim and goal of PFANA is to bring awareness and “Call to Action”
by its citizens.**
